

Men's Tennis Archive Information

The men's tennis historical archive was compiled based on available statistics and records beginning with the 1972-73 season. No records are available from 1946-47 through 1971-72. Records are also missing in 1973-74, 1985-86, and 1986-87.

If a player had statistics for only parts of the seasons that they played, his career totals were still calculated based on the available information. Despite any missing information, all of the career and season records are accurate.

The following describes what information is and is not available.

SINGLES

1946-47 through 1971-72

No information is available from these seasons

1972-73
